ONLY THE BEST. "**

ABC TOOLS SPA PREMIUM PARTNER

Professional hand tools

2019 opens with a very important agreement between Sabafer Srl and ABC Tools Spa, European leader in the tooling market. This solid union is strategic for Sabafer Srl and ABC itself, as it allows us to expand our sales network and to propose ourselves as a leader in the distribution of high quality work tools.

ABC Tools and Sabafer share the same ethical principles and final objectives: we are people who work with constancy and great passion, determination, will and trust in themselves and in the Company.

For us, being close to the customer does not only mean satisfying needs, reducing distances and times: in addition to technical preparation, availability and friendliness are also essential elements of the service. Our sales staff confirm this every day. This is why flexibility is a natural aspect of our character, it allows us to give quick and always personalized answers. It is our mission.

IMPACT BARRIERS

GO-SYSTEMS PREMIUM PARTNER

Security solutions within industrial plants

A long experience and constant research and development studies have allowed us to conceive innovative and technologically advanced products. The pursuit of excellence and differentiation in every detail has contributed to the design of new fastening systems using a new generation of technopolymers. This new evolution makes it possible to tackle any safety issue.

Sabafer designs and manufactures newly designed impact protection systems with the aim of preserving your facilities and protecting your staff. Our products are the ideal solution for securing all industrial areas, both internal and external, to prevent the transit of forklifts or heavy vehicles from putting operators, machinery, shelving or structural elements of the factories at risk. . Sabafer provides a complete and extremely accurate service: from design, to production, assembly, testing and after-sales assistance.

INDUSTRIAL SHELVING

STRUCTURAL SOLUTIONS FOR LOGISTICS

Thanks to our experience and our technical know-how, we guarantee you complete solutions for the manual and automatic handling and storage of load units such as cartons / crates, pallets / metal cages, maximizing the use of space and guaranteeing efficiency at the same time. and high performance.

Is logistics a science or an art? Or both?

What is certain is that today it presents itself with an unprecedented complexity, truly unthinkable until a few years ago.

It is no longer just an activity of managing the flow of goods within the production departments of companies, but it has become a crucial aspect of corporate life because performance and competitiveness on the market are also measured from there.

Today you say logistics and you necessarily think of a thousand new words that revolve around it: automation, integration, efficiency, flexibility, customization, cost optimization and much more.

INDUSTRIAL FURNITURE

A SYSTEM FOR YOUR ORDER

Your furniture to customize

A wide range of products intended for professional customers who require total quality, versatility and a contemporary design.

An offer addressed to the most various production and research sectors: mechanical, electronic, railway, aerospace, car workshops, but also to professional schools, universities and laboratories. Moreover, thanks to an accurate design in the lines and colors, we introduce our products in the most contemporary and innovative furniture world.

Professional and architectural studios, lofts, computer garages are the main recipients of a new way of furnishing, which uses metal for a more technical and contemporary image.

The possibility of combining the wide range of laminated woods with metal enriches the offer and use of drawer cabinets also in the creation of sales counters for shops of various product types.

TESTO - ADVANCED MEASURING INSTRUMENTS PREMIUM PARTNER

Technologically advanced measuring instruments

Are you looking for easy-to-use measuring systems for your application?

Testo offers customers ideal measuring instruments for everyday use in various applications for both industry and trade. At the forefront. Fast. Reliable. We are creating truly innovative measuring technology for our customers around the world. Testo offers you the ideal measuring instrument for any measurement or complete measuring systems. The new universal instrument for measuring environmental parameters testo 400 and its extensive range of precision probes have been developed with one goal in mind: make carrying out all measurements in the ventilation and air-conditioning systems sector as easy and quick as ever.

From today, with the Testo 400 you can carry out all those operations that were previously only possible with a software and a PC, directly on site and with a single measurement tool! The more complex the measurement, the more the measurement assistant integrated into the tool will help you in the configuration, execution and analysis of the results.

CUSTOMERS

We have always worked with large companies, which have entrusted us with the responsibility of assisting them in the supply of work equipment, which we repay promptly by carefully taking care of every order. Sabafer Srl is synonymous with speed and professionalism, we provide the customer with the experience of our team and the best brands on the market.
